

SDG&E Wildfire Fuels Modification Program 2023  
Site Audit Report for 09/11/2023 through 12/22/2023

Pole and Work Type					Work Scores					Notes
Circuit	Pole Number	Date of Work	Date of Audit	Work Type	Dead and Down	Non-Native Weeds	Native Thinning	Cleanliness	Return Visit Triggered	
COK1	P718352	9/12/2023	9/12/2023	Maintenance	GOOD	GOOD	GOOD	GOOD	NO	Transformer on pole disconnected - does not appear to still require WFM – possible Strategic Underground (SUG) circuit
CSL1	P612437	9/12/2023	9/12/2023	Maintenance	GOOD	GOOD	GOOD	GOOD	NO	None.
CSL1	P518180	9/12/2023	9/12/2023	Maintenance	GOOD	GOOD	GOOD	GOOD	NO	Site looks nice - two pine saplings look to be about 2-3 years old - nice job protecting them from line trimmers. Two of the three mature Black oaks on site have light GSOB infestations.
C222	P31782	9/11/2023	9/11/2023	Re-treatment	FAIR	GOOD	GOOD	GOOD	NO	Neighbor feedback: What a wonderful program, thank you for the help with the fire risk.
C1215	P178727	9/8/2023	9/8/2023	Maintenance	GOOD	GOOD	GOOD	GOOD	NO	None.
C1215	P40873	9/8/2023	9/8/2023	Maintenance	GOOD	GOOD	GOOD	GOOD	NO	None.
C222	P712164	9/15/2023	9/22/2023	Maintenance	FAIR	GOOD	GOOD	GOOD	NO	None.
C222	P137540	9/15/2023	9/22/2023	Maintenance	GOOD	GOOD	GOOD	GOOD	NO	Crew avoided waterway (outside of radius but still good)
C73	P971026J	9/14/2023	2023-09-21	Treatment	GOOD	FAIR	GOOD	GOOD	NO	Overall site is Good.
COK1	P137626	9/13/2023	2023-09-21	Maintenance	GOOD	GOOD	GOOD	GOOD	NO	Site recently undergrounded through Strategic Undergrounding.
C222	P712674	9/15/2023	2023-09-21	Re-treatment	GOOD	GOOD	GOOD	GOOD	NO	Site looks nice. Strategic Undergrounding

SDG&E Wildfire Fuels Modification Program 2023  
Site Audit Report for 09/11/2023 through 12/22/2023

Pole and Work Type					Work Scores					Notes
Circuit	Pole Number	Date of Work	Date of Audit	Work Type	Dead and Down	Non-Native Weeds	Native Thinning	Cleanliness	Return Visit Triggered	
										trench going in during audit - expect this was final retreatment at this pole.
C222	P137628	9/15/2023	2023-09-21	Maintenance	GOOD	GOOD	GOOD	GOOD	NO	Nice buffering of the wetland and drainage. Escalate pole to snag removal to further mitigate risk. Scattered poison oak resulted in some areas not being treated. - keep eye on positive habitat conversion (final photo of seemingly bare ground)
CSL1	P119183	9/13/2023	2023-09-20	Maintenance	GOOD	GOOD	GOOD	GOOD	NO	Site looks nice - good separation.
COK1	P611827	9/13/2023	2023-09-20	Maintenance	GOOD	GOOD	GOOD	GOOD	NO	Pole recently undergrounded with the Strategic Undergrounding program. Crew did a good job of leaving behind ornamental shrubbery (common lilac). Site is on a steep slope, and the crew did well removing vegetation.
COK1	P133447	9/13/2023	2023-09-20	Maintenance	FAIR	GOOD	GOOD	GOOD	NO	None.
CJU1	P811578	9/22/2023	9/29/2023	Maintenance	GOOD	GOOD	GOOD	GOOD	No	Nice work avoiding poison oak within the ground/shrub/tree layer
COK1	P237830	9/22/2023	9/29/2023	Maintenance	GOOD	GOOD	GOOD	GOOD	No	Pole currently having Underground infrastructure put in (possible SUG).

SDG&E Wildfire Fuels Modification Program 2023  
Site Audit Report for 09/11/2023 through 12/22/2023

Pole and Work Type					Work Scores					Notes
Circuit	Pole Number	Date of Work	Date of Audit	Work Type	Dead and Down	Non-Native Weeds	Native Thinning	Cleanliness	Return Visit Triggered	
COK1	P137599	9/22/2023	9/29/2023	Maintenance	GOOD	GOOD	GOOD	GOOD	No	Appears to be undergoing SUG work and will likely be out of the program come next year.
COK1	P233607	9/22/2023	9/29/2023	Maintenance	GOOD	GOOD	GOOD	GOOD	No	Nice work with the drainage - likely the last treatment on this pole due to SUG.
C222	P412770	9/20/2023	9/28/2023	Re-treatment	GOOD	GOOD	GOOD	GOOD	No	None.
C222	P717639	9/20/2023	9/28/2023	Maintenance	GOOD	GOOD	GOOD	GOOD	No	None.
C222	P136325	9/18/2023	9/28/2023	Re-treatment	GOOD	GOOD	GOOD	GOOD	No	Aquatic feature onsite, good avoidance.
C222	P818846	9/19/2023	9/28/2023	Re-treatment	GOOD	GOOD	GOOD	GOOD	No	Nice shrub cuts.
C221	P613617	9/22/2023	9/28/2023	Maintenance	GOOD	GOOD	GOOD	GOOD	No	This site looks great!
C221	P815085J	9/22/2023	9/28/2023	Maintenance	FAIR	GOOD	FAIR	GOOD	No	Some dead/down remained that was addressed by the auditor. Watch the perimeter it looks like a weed whipper got overzealous but was corrected quickly (negligible extra impact).
C222	P136325	9/18/2023	9/26/2023	Re-treatment	GOOD	GOOD	GOOD	GOOD	No	None.
C222	P616345	9/29/2023	10/6/2023	Maintenance	good	good	good	good	no	Some understory left behind that could be addressed in Retreatment.
C222	P318290	9/29/2023	10/6/2023	Maintenance	good	good	good	good	no	Wow!! This is beautifully done. Very challenging site with significant poison oak (removal would provide significant increase in treatment area), very steep slopes, and loose footing. Well executed

SDG&E Wildfire Fuels Modification Program 2023  
Site Audit Report for 09/11/2023 through 12/22/2023

Pole and Work Type					Work Scores					Notes
Circuit	Pole Number	Date of Work	Date of Audit	Work Type	Dead and Down	Non-Native Weeds	Native Thinning	Cleanliness	Return Visit Triggered	
										haul out a vegetation and protection of the stream bank.
C222	P207754	9/29/2023	10/6/2023	Maintenance	good	fair	good	good	no	Landowner refuse pile (sticks and chain-link intertwined) left behind (good call). Part of 50' that was previously omitted is now incorporated (fair rating) which will require an extension/adjustment of the treatment area boundary. Fenced area was weed whipped, removing non-native weeds.
C222	P312953	9/29/2023	10/6/2023	Maintenance	good	good	good	good	no	Challenging site with large willows and pine that can be trimmed. Willows present a very low fire risk but provide connectivity. Overall, a mesic site.
COK1	P133433	9/29/2023	10/5/2023	Maintenance	fair	fair	fair	fair	no	Apple trees with dead/down present; reference email/convo with Ryan White about proper procedures for removal.
C221	P116042	9/29/2023	10/6/2023	Re-treatment	good	good	good	good	no	Significant native regrowth at this site from native sunflowers. Some damage to scrub oak regrowth from line trimmers (hedge trimmers would be less
C222	P412795	9/28/2023	10/5/2023	Maintenance	good	good	fair	good	no	More herbaceous perennials, and small shrubs could be removed to increase

SDG&E Wildfire Fuels Modification Program 2023  
Site Audit Report for 09/11/2023 through 12/22/2023

Pole and Work Type					Work Scores					Notes
Circuit	Pole Number	Date of Work	Date of Audit	Work Type	Dead and Down	Non-Native Weeds	Native Thinning	Cleanliness	Return Visit Triggered	
										veg clearing associated with Maintenance.
C222	P330000	9/26/2023	10/4/2023	Treatment	good	good	good	good	no	Young native trees comprise a significant portion of the understory (~12%) - VERY NICE site overall.
C222	P31802	9/26/2023	10/4/2023	Maintenance	good	good	good	good	no	Mesic site, nicely executed. Future woodrat midden removal will allow for more effective treatment.
C222	P616345	9/29/2023	10/6/2023	Maintenance	good	good	good	good	no	Some understory left behind that could be addressed in Retreatment.
C222	P318290	9/29/2023	10/6/2023	Maintenance	good	good	good	good	no	Wow!! Beautifully done. Very challenging, significant poison oak (removal would provide large increase in treatment area), very steep slopes + loose footing. Well executed haul out of veg. and protection of the stream bank.
CJU1	P617824	10/6/23	10/11/2023	Maintenance	Good	Good	Good	Good	no	Nice job weed whipping around the buckwheat without damaging it. Good raking and avoidance of the sensitive resources; auditor noticed deer antlers left behind.
C222	P714587	10/6/23	10/11/2023	Maintenance	Good	Good	Good	Good	no	Good work removing the dead flower stalks from the white sage but leaving the base intact.

SDG&E Wildfire Fuels Modification Program 2023  
Site Audit Report for 09/11/2023 through 12/22/2023

Pole and Work Type					Work Scores					Notes
Circuit	Pole Number	Date of Work	Date of Audit	Work Type	Dead and Down	Non-Native Weeds	Native Thinning	Cleanliness	Return Visit Triggered	
										Limbing of oaks can/should be conducted with loppers on weeding/maintenance sites (Good minus).
C222	P237805	10/6/23	10/11/2023	Maintenance	Good	Good	Good	Good	no	None
CJU1	P415626	10/6/23	10/11/2023	Maintenance	Good	Good	Good	Good	no	None
CJU1	P415621	10/6/23	10/11/2023	Maintenance	Good	Good	Good	Good	no	Good avoidance of waterlines even though they are likely inoperable.
CJU1	P211858	10/6/23	10/11/2023	Maintenance	Good	Fair	Good	Good	no	Downslope portion of the radius left untouched, without a Maintenance reporting form there is no context. It appears that the crew interpreted a dip in the slope as a waterway, no hydrology or wetland vegetation present. This area should be included in weed whipping.
C222	P312278	10/5/23	10/12/2023	Maintenance	Good	Good	Good	Good	no	Overall Good with few issues. Lots of shredded stumps and breakage; loppers or hedge trimmers would reduce this effect and increase productivity. Twigs left scattered through the site.
C222	P166904	10/5/23	10/12/2023	Maintenance	Good	Good	Good	Good	no	Fallen tree has been removed. Excellent work if this was UTS
C222	P166905	10/5/2023	10/12/2023	Maintenance	Good	Good	Good	Good	no	Overall Good – but some small branches left behind
CPE1	P316670	10/5/23	10/12/2023	Re-treatment	Good	Good	Fair	Good	no	Native thinning
CPE1	P311607	10/5/23	10/12/2023	Maintenance	Good	Fair	Good	Good	no	Non-native thinning

SDG&E Wildfire Fuels Modification Program 2023  
Site Audit Report for 09/11/2023 through 12/22/2023

Pole and Work Type					Work Scores					Notes
Circuit	Pole Number	Date of Work	Date of Audit	Work Type	Dead and Down	Non-Native Weeds	Native Thinning	Cleanliness	Return Visit Triggered	
C222	P111785	10/4/23	10/12/2023	Maintenance	Good	Good	Good	Good	no	Dead / Down
C222	P111072	10/3/2023	10/12/2023	Re-treatment	Good	Good	Good	Good	no	Native thinning
CJU1	P109644	10/10/2023	10/20/2023	Maintenance	fair	fair	good	good	no	Excessive wood piles/biomass not removed. Some wood left for landowner.
CSL1	P716714	10/10/2023	10/20/2023	Maintenance	good	good	good	good	no	None
C221	P415199	10/20/2023	10/20/2023	Maintenance	good	good	good	good	no	None
C221	P17914	10/20/2023	10/20/2023	Maintenance	good	good	good	good	no	None
CJU1	P211854	10/13/2023	10/20/2023	Re-treatment	good	good	good	good	no	UTS followed biologist instruction to leave some veg that could have been removed. Nice execution of areas that were trimmed.
C222	P813141	10/9/2023	10/19/2023	Maintenance	good	good	good	good	no	Weed removal well done, even good amount of duff removed. Some green grass seedlings present, to be expected.
CPE1	P316672	10/10/2023	10/19/2023	Maintenance	good	fair	good	good	no	Some sparse weeds left intact in an obvious spot (hence fair assessment).
CPE1	P417310	10/9/2023	10/19/2023	Re-treatment	good	good	good	good	no	Treatment circle a bit lop-sided. Native grasses and weeds removed but large area of Himalayan blackberry intact
C222	P18894	10/9/2023	10/19/2023	Maintenance	good	good	good	good	no	East steep slope with dense veg left alone, as well as poison oak throughout accounting for relatively high cover onsite. Good quality of weed removal, even good amount of duff removed. Some green grass seedlings present but expected.

SDG&E Wildfire Fuels Modification Program 2023  
Site Audit Report for 09/11/2023 through 12/22/2023

Pole and Work Type					Work Scores					Notes
Circuit	Pole Number	Date of Work	Date of Audit	Work Type	Dead and Down	Non-Native Weeds	Native Thinning	Cleanliness	Return Visit Triggered	
C222	P110266	10/9/2023	10/19/2023	Re-treatment	good	fair	good	good	no	Overall good lack of weeds onsite, one obvious patch of tecolote remained
COK1	P411180	10/10/2023	10/18/2023	Maintenance	good	good	good	good	no	Great looking site! Very clean and tidy
C222	P713432	10/4/2023	10/18/2023	Maintenance	good	good	good	good	no	Nice balance of duff/leaf litter. Site is majority coast live oak understory with limited shrub or herbaceous cover. Seems to be ripe for SUG
C222	P515512	10/4/2023	10/18/2023	Maintenance	good	good	good	good	no	None.
C222	P619285	10/9/2023	10/18/2023	Maintenance	good	good	good	good	no	The site looks fantastic, the ground is well trimmed and raked. Sites in the surrounding area are being SUGed – Landowner interaction: reports no SUG activity at this pole yet. Appreciates the work – thanks guys!
C222	P712159	10/23/2023	10/27/2023	Re-treatment	good	good	fair	good	no	8-10 small oaks could have been limbed and have dry branches touching the ground. A few manzanita could be removed to improve separation.
COK1	P512738	10/23/2023	10/26/2023	Re-treatment	good	good	fair	fair	no	Additional shrub removal on select shrubs would have markedly increased horizontal separation. Some larger dead and down was removed by auditor. Likely a time restriction that led to less work occurring than needed.
CJU1	P211854	10/13/2023	10/20/2023	Re-treatment	good	good	good	good	no	None.
C221	P330241	10/18/2023	10/26/2023	Treatment	good	good	good	good	no	None.

SDG&E Wildfire Fuels Modification Program 2023  
Site Audit Report for 09/11/2023 through 12/22/2023

Pole and Work Type					Work Scores					Notes
Circuit	Pole Number	Date of Work	Date of Audit	Work Type	Dead and Down	Non-Native Weeds	Native Thinning	Cleanliness	Return Visit Triggered	
C222	P211886	10/17/2023	10/25/2023	Re-treatment	good	good	good	good	no	Good clean site, but some non-native weeds left on site, possible that they were assumed native annuals.
C222	P615460	9/27/2023	10/25/2023	Re-treatment	good	good	good	good	no	None.
C449	P42913	11/1/2023	11/1/2023	Maintenance	Good	Good	NA	Good	No	
C445	P45872	10/25/2023	11/1/2023	Maintenance	Fair	Fair	NA	Good	No	Several dead branches removed by auditor. Site boundary was underestimated.
C445	P41453	10/24/2023	11/1/2023	Maintenance	Fair	Good	NA	Good	No	Large chamise trunk and branch left on site and two small cut sections of wood/branch were removed by auditor. Additional raking needed.
C445	P41450	10/25/2023	11/1/2023	Maintenance	Good	Good	NA	Good	No	
C445	P41054	10/24/2023	11/1/2023	Maintenance	Good	Good	NA	Good	No	Some weeds were left untrimmed.
C445	P45339	10/24/2023	11/1/2023	Maintenance	Good	Fair	NA	Good	No	Weeds in vegetated strip across the road are within site but not trimmed.
C445	P41064	10/24/2023	11/1/2023	Maintenance	Good	Good	NA	Fair	No	Area within OHV trail was left untreated, there are no notes as to the reasoning.
C1215	P40919	10/25/2023	11/1/2023	Maintenance	Good	Good	Good	Good	No	
C448	P43890	10/26/2023	11/2/2023	Maintenance	Good	Good	NA	Good	No	

SDG&E Wildfire Fuels Modification Program 2023  
Site Audit Report for 09/11/2023 through 12/22/2023

Pole and Work Type					Work Scores					Notes
Circuit	Pole Number	Date of Work	Date of Audit	Work Type	Dead and Down	Non-Native Weeds	Native Thinning	Cleanliness	Return Visit Triggered	
C448	P30392	10/26/2023	11/2/2023	Maintenance	Good	Good	NA	Good	No	
C448	P43891	10/26/2023	11/2/2023	Maintenance	Good	Good	NA	Good	No	Clean weed whipping work, stubble left behind. More weed whipped material could have been raked.
C448	P43896	10/26/2023	11/2/2023	Maintenance	Good	Good	Fair	Fair	No	Shrubs are nicely trimmed but willow branches were snapped rather than clean cuts. Clean weed whipping job on the northern half of the polygon.
C448	P138735	10/26/2023	11/2/2023	Maintenance	NA	Poor	NA	Fair	yes	Site does not appear to have been treated. Nonnative grasses and mustard stalks remain in edges of islands, open areas, and across from fence which is part of treatment area.
C448	P837164	10/27/2023	11/2/2023	Maintenance	Good	Good	NA	Good	No	Clean weed whipping and raking.
C441	P40682	10/26/2023	11/2/2023	Maintenance	Good	Good	NA	Fair	No	Areas that were line trimmed show significant reduction in flash fuels
C448	P43861	10/27/2023	11/2/2023	Maintenance	Good	Good	NA	Good	No	Overall looks neat and open.
C448	P43856	10/25/2023	11/2/2023	Maintenance	Good	Good	NA	Fair	No	Site is well raked.
C448	P45531	10/25 & 10/26	11/2/2023	Maintenance	Good	Good	NA	Good	No	
C448	P43857	10/25 & 10/26	11/2/2023	Maintenance	Good	Good	NA	Good	No	

SDG&E Wildfire Fuels Modification Program 2023  
Site Audit Report for 09/11/2023 through 12/22/2023

Pole and Work Type					Work Scores					Notes
Circuit	Pole Number	Date of Work	Date of Audit	Work Type	Dead and Down	Non-Native Weeds	Native Thinning	Cleanliness	Return Visit Triggered	
C1215	P44708	10/25/2023	11/2/2023	Maintenance	Good	Good	NA	Good	No	Site is well raked.
C1215	P40838	10/25/2023	11/2/2023	Maintenance	Good	Good	NA	Good	No	
C1215	P40836	10/25/2023	11/2/2023	Maintenance	Good	Good	NA	Good	No	Lots of cactus on site, obvious care was taken to trim as much as possible without damaging the succulents.
C445	P130493	10/24/2023	11/3/2023	Maintenance	Fair	Good	Good	Good	No	Corridors are clear of weeds and dead/down but more removal of dead material within the shrubs is needed.
C445	P134664	10/24/2023	11/3/2023	Maintenance	Fair	Good	NA	Fair	No	Treatment is evident near the pole but becomes less visible within the outlying shrubs. 2-3 large piles of sticks remain.
C448	P43747	10/27/2023	11/3/2023	Maintenance	Fair	Good	NA	Good	No	Site weed whipped and thoroughly raked.  Clean cuts on trees. Smaller dead and down logs from large fallen tree were sawed off but not removed from site (7 removable logs were placed outside of treatment area by auditor).
C445	P41701	10/24/2023	11/3/2023	Maintenance	Good	Good	NA	Good	No	Clean corridors end evidence of raking throughout. Very few remaining sticks or twigs.
C448	P46039	10/27/2023	11/3/2023	Maintenance	Good	Good	NA	Good	No	Weed whipped material was thoroughly raked.

SDG&E Wildfire Fuels Modification Program 2023  
Site Audit Report for 09/11/2023 through 12/22/2023

Pole and Work Type					Work Scores					Notes
Circuit	Pole Number	Date of Work	Date of Audit	Work Type	Dead and Down	Non-Native Weeds	Native Thinning	Cleanliness	Return Visit Triggered	
C445	P41094	10/24/2023	11/3/2023	Maintenance	Good	Good	NA	Good	No	
C448	P43746	10/27/2023	11/3/2023	Maintenance	Good	Good	Fair	Good	No	Shredded buckwheat shrubs
C445	P46069	10/24/2023	11/3/2023	Maintenance	Good	Good	NA	Good	No	Site looks good overall.
C445	P41233	10/26/2023	11/3/2023	Maintenance	Good	Good	Good	Good	No	Site looks clean considering the amount of chamise that was removed. Generally, shrub cuts could be taken lower to the ground and be more thorough with removal.
C445	P44642	10/27/2023	11/3/2023	Maintenance	Good	Good	Good	Good	No	Site looks clean overall, very tidy understory to make up for dense canopy cover. Some cleanup issues
C441	P237582	10/27/2023	11/3/2023	Maintenance	Good	Good	Good	NA	No	Weed whipping and raking thoroughly done.
C448	P103015	10/27/2023	11/3/2023	Maintenance	Good	Good	Fair	Good	No	Site was thoroughly weed whipped. East side could use more raking.
C442	P274898	11/3/2023	11/8/2023	Maintenance	Good	Good	NA	Good	No	The site was well treated, a small patch of weeds left behind. Great length on weed whipping.
C442	P274900	11/3/2023	11/8/2023	Maintenance	Good	Good	NA	Good	No	Site looks great. Good preservation of duff. A few sticks needed to be removed.

SDG&E Wildfire Fuels Modification Program 2023  
Site Audit Report for 09/11/2023 through 12/22/2023

Pole and Work Type					Work Scores					Notes
Circuit	Pole Number	Date of Work	Date of Audit	Work Type	Dead and Down	Non-Native Weeds	Native Thinning	Cleanliness	Return Visit Triggered	
C442	P271506	11/3/2023	11/8/2023	Maintenance	Good	Fair	NA	Good	No	Remaining weeds appear to be left on purpose due to time and complexity constraints.
C442	P177023	11/2/2023	11/8/2023	Maintenance	Good	Good	NA	Good	No	Some damage to basket brush stems (native), appears to be weed whipper.
C442	P177019	11/2/2023	11/8/2023	Maintenance	Good	Good	NA	Good	No	Overall Good - a few isolated areas that could have been raked a little better.
C442	P105057	11/2/2023	11/8/2023	Maintenance	Good	Good	NA	Fair	No	Appears the driveway shoulder to the SW was not raked.
C442	P274907	11/3/2023	11/8/2023	Maintenance	Good	Fair	NA	Good	No	Some non-natives left behind, west of the pole.
C442	P176998	11/3/2023	11/8/2023	Maintenance	Good	Poor	NA	Good	No	It appears the treatment area was misread, approximately 50% of the area was left untreated. Areas that were treated look great.
C448	P43768	10/30/2023	11/8/2023	Maintenance	Fair	Fair	NA	Fair	No	Some handfuls of cut sticks remain at bases of shrubs. Area at southern border was not line trimmed and contains flashy fuels, primarily dry nonnative grasses. Appears to have been a misjudged perimeter.
C448	P207241	10/30/2023	11/8/2023	Maintenance	Good	Good	NA	Good	No	Site well raked, even amid habitat islands.

										treated and should have been omitted.
C1021	P819139	11/28/2023	12/7/2023	Weeding	Good	Good	NA	Good	no	Overall clean work
C1021	P817764	11/28/2023	12/7/2023	Weeding	Good	Good	NA	Good	no	Great work on a challenging slope
CTM1	P718516	11/30/2023	12/8/2023	Weeding	Fair	Fair	NA	Fair	no	Raking immediately around the pole is evident but lacking across the site as a whole; large raked pile of leaves remains, weeds occur in rocky areas across site and could have been removed.
C217	P214814	11/30/2023	12/8/2023	Weeding	Good	Good	NA	Good	no	None.
C599	P319647	11/27/2023	12/7/2023	Weeding	Good	Good	NA	Good	no	Crew worked around miscellaneous objects from property within treatment area. Clean line trimming site.
C217	P31849	11/30/2023	12/8/2023	Weeding	Good	Good	NA	Good	no	None.
C217	P31844	11/20/2023	12/8/2023	Weeding	Good	Good	NA	Good	no	None.
C217	P214815	11/30/2023	12/8/2023	Weeding	Good	Good	NA	Good	no	Clean line trimming site. Yucca leaves could have been removed. Noticed at other sites, could be something to mention to the crews.
C217	P137877	11/30/2023	12/8/2023	Weeding	Good	Good	NA	Good	no	Site is partially on a hillside. A little more raking of leaf litter on northwest slope.

SDG&E Wildfire Fuels Modification Program 2023  
Site Audit Report for 09/11/2023 through 12/22/2023

Pole and Work Type					Work Scores					Notes
Circuit	Pole Number	Date of Work	Date of Audit	Work Type	Dead and Down	Non-Native Weeds	Native Thinning	Cleanliness	Return Visit Triggered	
C520	P612502	12/1/2023	12/8/2023	Weeding	Good	Good	NA	Good	no	Raking is decent across site but some small sticks are concentrated within the pole brushing circle and could have been removed
C520	P715526	12/1/2023	12/8/2023	Weeding	Good	Fair	NA	Fair	yes	Site could have used more raking throughout.
C217	P811554	11/30/2023	12/8/2023	Weeding	Good	Good	NA	Good	no	None.
C520	P322602	12/1/2023	12/8/2023	Weeding	Good	Good	NA	Good	no	None.
C520	P322599J	12/1/2023	12/8/2023	Weeding	Good	Fair	NA	Good	no	Weed whipping is evident, but some weeds could have been taken closer to ground across the site
C217	P617997	11/30/2023	12/8/2023	Weeding	Good	Good	NA	Good	no	None.
C217	P246461	-	12/8/2023	Weeding	Good	Fair	NA	Good	no	Approx 5x10 ft wide area was not line trimmed on northwestern edge of pole. A smaller patch of grass was missed east of the pole
C217	P218785	-	12/8/2023	Weeding	Good	Good	NA	Good	no	None.
C217	P186205	11/30/2023	12/8/2023	Weeding	Fair	Good	NA	Good	no	A little bit more raking was needed at the bottom of the slope but not worth scheduling re-work. Yucca leaves could have been removed. Small western polygon looks great. Brush pile and weeds removed during audit.

SDG&E Wildfire Fuels Modification Program 2023  
Site Audit Report for 09/11/2023 through 12/22/2023

Pole and Work Type					Work Scores					Notes
Circuit	Pole Number	Date of Work	Date of Audit	Work Type	Dead and Down	Non-Native Weeds	Native Thinning	Cleanliness	Return Visit Triggered	
CTM1	P716443	11/30/2023	12/8/2023	Weeding	Good	Good	NA	Good	no	None.
C217	P218791	12/1/2023	12/8/2023	Weeding	Fair	Good	NA	Good	no	A few sticks and dead yucca remain
C217	P218790	12/1/2023	12/8/2023	Weeding	Good	Good	NA	Good	no	None.
CTM1	P611948	11/30/2023	12/8/2023	Weeding	Good	Good	NA	Good	no	None.
C217	P218792	12/1/2023	12/8/2023	Weeding	Good	Good	NA	Good	no	None.
C217	P218787	-	12/8/2023	Weeding	Good	Good	NA	Good	no	None.
C442	P970287	12/4/23	12/13/23	Weeding	Fair	Fair	NA	Fair	No	Sticks remain throughout. D/D remains along the northern perimeter where manzanita is dense as well as the western edge near streambank; ok to remove D/D that has fallen into the stream.
C79	P173213	12/4/23	12/13/23	Weeding	Fair	Good	NA	Fair	No	D/D removal may not have been conducted. No raking in 10' circle, orange plastic weed whip line left in the circle. Auditor picked up 8 handfuls of sticks from within the circle.
C73	P173337	12/4/23	12/13/23	Weeding	Good	Good	NA	Fair	No	Sticks remain, approx. 1/4th of the dead flower stalks in the white sage remain and could be cut lower to the ground.
C79	P874925	12/4/23	12/13/23	Weeding	Good	Good	NA	Good	No	None.
C79	P875951	12/4/23	12/13/23	Weeding	Good	Good	NA	Good	No	None.
